So much more caring.

Today, continuous skin care is a must. Thanks to the ProPanthenol complex + vitamin E developed

by schülke, **desderman® care gel** goes beyond the conventional standard. With its two additional care components, your skin will experience a new level of

skin care with **desderman® care gel**. Caring for your hands at work has never been easier.

**ProPanthenol complex + vitamin E – your skin will thank you for it:**

- soft, supple skin feeling<sup>3</sup>
- gentle and moisturising<sup>3</sup>
- alleviates itchiness<sup>3</sup>
- stable fingernails, less susceptible to cracking<sup>3</sup>

“Finally, the hands are also maintained with full protection.”  
Brigitte L., doctor

“I had no idea you could find a hand disinfectant that is also so kind to the skin. Terrific product!”  
Wiebke H., qualified dental assistant
