

Wash mitts for a quick, caring and gentle body wash without water

esemtan® wash mitts

Our Plus

- directly ready to use and easy to use
- gentle on the skin, good cleaning
- pleasant smell
- dermatologically tested

Application areas

- for gentle body wash without water
- cleaning and care in one step
- particularly suitable for washing of patients which are immobile, requiring care or are bedridden

Product Profile

- wash mitts
- fluffy, soft cloth material
- contains allantoin to protect the skin from irritation

Instructions for use

Make sure the skin is completely moistened, especially in the area of the armpits, areas between the fingers and between the toes as well as other skin folds.

Rinsing afterwards with water is not necessary.

If required, the packaging can be heated in the microwave (30 seconds / 600 W) or cooled in advance for refreshing washing. Open cautiously the softpack and take out an esemtan® wash mitt, as required. Clean the skin.

When using the product on a long-term daily basis a regular washing with wash lotion and water (e.g. weekly) should be performed.

Do not use in case of known allergies or with suspected allergy to any of the ingredients contained.

One mitt per body area (plus two mitts in reserve):

1. face, neck and breast
2. right arm and armpit

3. left arm and armpit
4. abdomen, front
5. right leg
6. left leg
7. back
8. abdomen, back

esemtan[®] wash mitts
