

Wipes based on renewable materials

MICROSHIELD® Antibacterial Hand Wipes

Designed for use in healthcare to support patient hand hygiene.

The newest addition to the MICROSHIELD® family emphasises convenient access to hand hygiene.

MICROSHIELD® Antibacterial Hand Wipes address the challenges of maintaining hand cleanliness in a hospital or aged-care setting and in-home care situations where patients may have limited mobility or access to traditional hand washing options.

- Plastic-free wipes
- Hand cleansing without water
- Kills germs - antibacterial
- 15 lightly scented wipes
- Dermatologically tested
- Wipes made from 100 % renewable raw materials (FSC-certified)

Application areas

- For patients or residents who have limited access or difficulty accessing a sink.
- Suitable for cleaning hands before and after meals.
- Use after personal care activities to reduce the risk of infection.

Instructions for use

Peel back re-sealable label and remove wipes as needed. Gently wipe hands all over - front and back of hands. Wipe tips of fingers and spaces between each finger, and thumbs. Allow hands to air dry.

If hands are heavily soiled or dirty, more than one wipe may be needed.

Firmly close re-sealable label to prevent moisture loss from the pack.

Product ingredients

Water, Propylene Glycol, Phenoxyethanol, Glycerin, PEG-40 Hydrogenated Castor Oil, Benzalkonium Chloride, Cetylpyridinium Chloride, Menthol, Fragrance, Aloe Barbadensis Leaf Extract.

Special advice

Always read the label and use only as directed.

- For external use only.
- Do not use as a baby wipe.
- Store at room temperature.
