

Sterile, powdered concentrate for disinfecting surfaces in cleanrooms / PT2

perform® sterile concentrate PEROXY

Our Plus

- sporicidal and very good material compatibility
- sterile (X-Ray irradiated)
- double repackaged, suitable for cleanroom classes A/B
- convenient single-use sachets
- colour and perfume free
- efficacy tested according to European norms (EN)

Application areas

For the disinfection of surfaces. perform® sterile concentrate PEROXY is suitable for use in all risk areas, where, in addition to broad efficacy, high demands are placed on the environmental behavior and the user-friendliness of a surface disinfection preparation. Due to the very good material compatibility of the working solution perform® sterile concentrate PEROXY can also be used on problematic materials, such as acrylic glass (incubators), can be used.

Instructions for use

To prepare the working solution, first add water (max. 30 °C) to the tub or bucket, then sprinkle in perform® sterile concentrate PEROXY and dissolve. For example: 1 sachet (40 g) to 4 liters of water = 1 % (10 g/l). Remove visible soiling beforehand. Wipe surfaces well to wet them and observe the reaction time. If necessary, rinse the surface in contact with the product. To reduce the formation of residues on treated surfaces, surfaces should only be left with minimal residual moisture after wiping. perform® sterile concentrate PEROXY has good cleaning properties. Mixing with cleaning boosters is therefore not allowed. The prepared working solutions have a lifetime of 8 hours (at 25 °C) and 4 hours (at 40 °C) for guaranteed stability of the active ingredient. The working solution should be replaced earlier in case of heavy contamination.

Microbiological efficacy

Efficacy	Concentration	Contact time
bactericidal <i>EN1276, EN13697</i>	0.5 % (5 ml/l)	30 min.
yeastcidal <i>EN1650, EN13697</i>	0.5 % (5 ml/l)	60 min.
fungicidal <i>EN1650, EN13697</i>	1.5 % (15 ml/l)	60 min.
virucidal against enveloped viruses <i>EN14476, EN16777</i>	0.5 % (5 ml/l)	5 min.
virucidal <i>EN14476, EN16777</i>	1 % (10 ml/l)	5 min.
Bacillus subtilis <i>EN13704</i>	1 % (10 ml/l)	120 min.

perform[®] sterile concentrate PEROXY

Product data

100 g contains: 49.5 g pentakalium bis (peroxymonosulfate) bis (sulfate).

Chemical-physical data

Colour: white

Flash point: not applicable

Form: solid powder

pH value: ca. 3,0 / 20 g/l / 20 °C / in Wasser

Viscosity, dynamic: not applicable

Special advice

Use disinfectants safely. Always read the label and product information before use. For professional use only.

The wearing of protective gloves (e.g. made of nitrile rubber) is recommended. Do not store bags above room temperature.

The active solution may bleach textile dyes that are highly sensitive.
