

Particularly skin-friendly colour- and perfume-free protective cream

New with
Hamamelis-
Extract

sensiva[®] protective cream

Our Plus

- improves the natural skin barrier
- protective cream (according TRGS 401 - German regulation)
- fast absorbing
- easy to spread
- does not reduce the effect of hand disinfection (desderman pure and desmanol pure)
- colour- and perfume-free
- dermatologically tested

Application areas

- to be applied to clean, dry hands
- protects hands in wet environments (e.g. when dealing with aqueous cleaning solutions)
- special protection for endangered hands
- for frequent use while working
- suitable under protective gloves
- for use in the food processing industry

Product Profile

- water-in-oil emulsion
- contains Hamamelis-essence, which protects the skin from external effects, reduces inflammation and thickens the skin surface
- contains Allantoin which has a soothing effect on the skin, moisturizes and supports cell renewal

Instructions for use

Apply and rub into the skin.
Apply to the back of your hand and rub at first the backs of your hands together, then the insides of your hands. When applying pay particular attention to the places in between your fingers and the nail bed.

It should be used regularly during your daily work especially before skin-stressing activities, e.g. when starting with your work, after breaks and after each hand cleansing. The product does not contain perfume. Nevertheless, it may be that it does not always smell the same on the skin. This is because the skin structure of every human being is unique. Thus, an odorless product is perceived differently on different hands.

Use sparingly!

- For hygienic reasons, the product should be extracted via pump or dispenser
- Rub the product gently into clean/dry hands

- Apply the product to the back of the hand and spread the cream with the back of the other hand

- Afterwards, apply the cream to the fingers also, and finally to the inside of the hands
- While rubbing it in, pay special attention to the areas between the fingers and to the nail beds

sensiva[®] protective cream
